COP 2018 Stakeholder Meeting

January 31, 2018

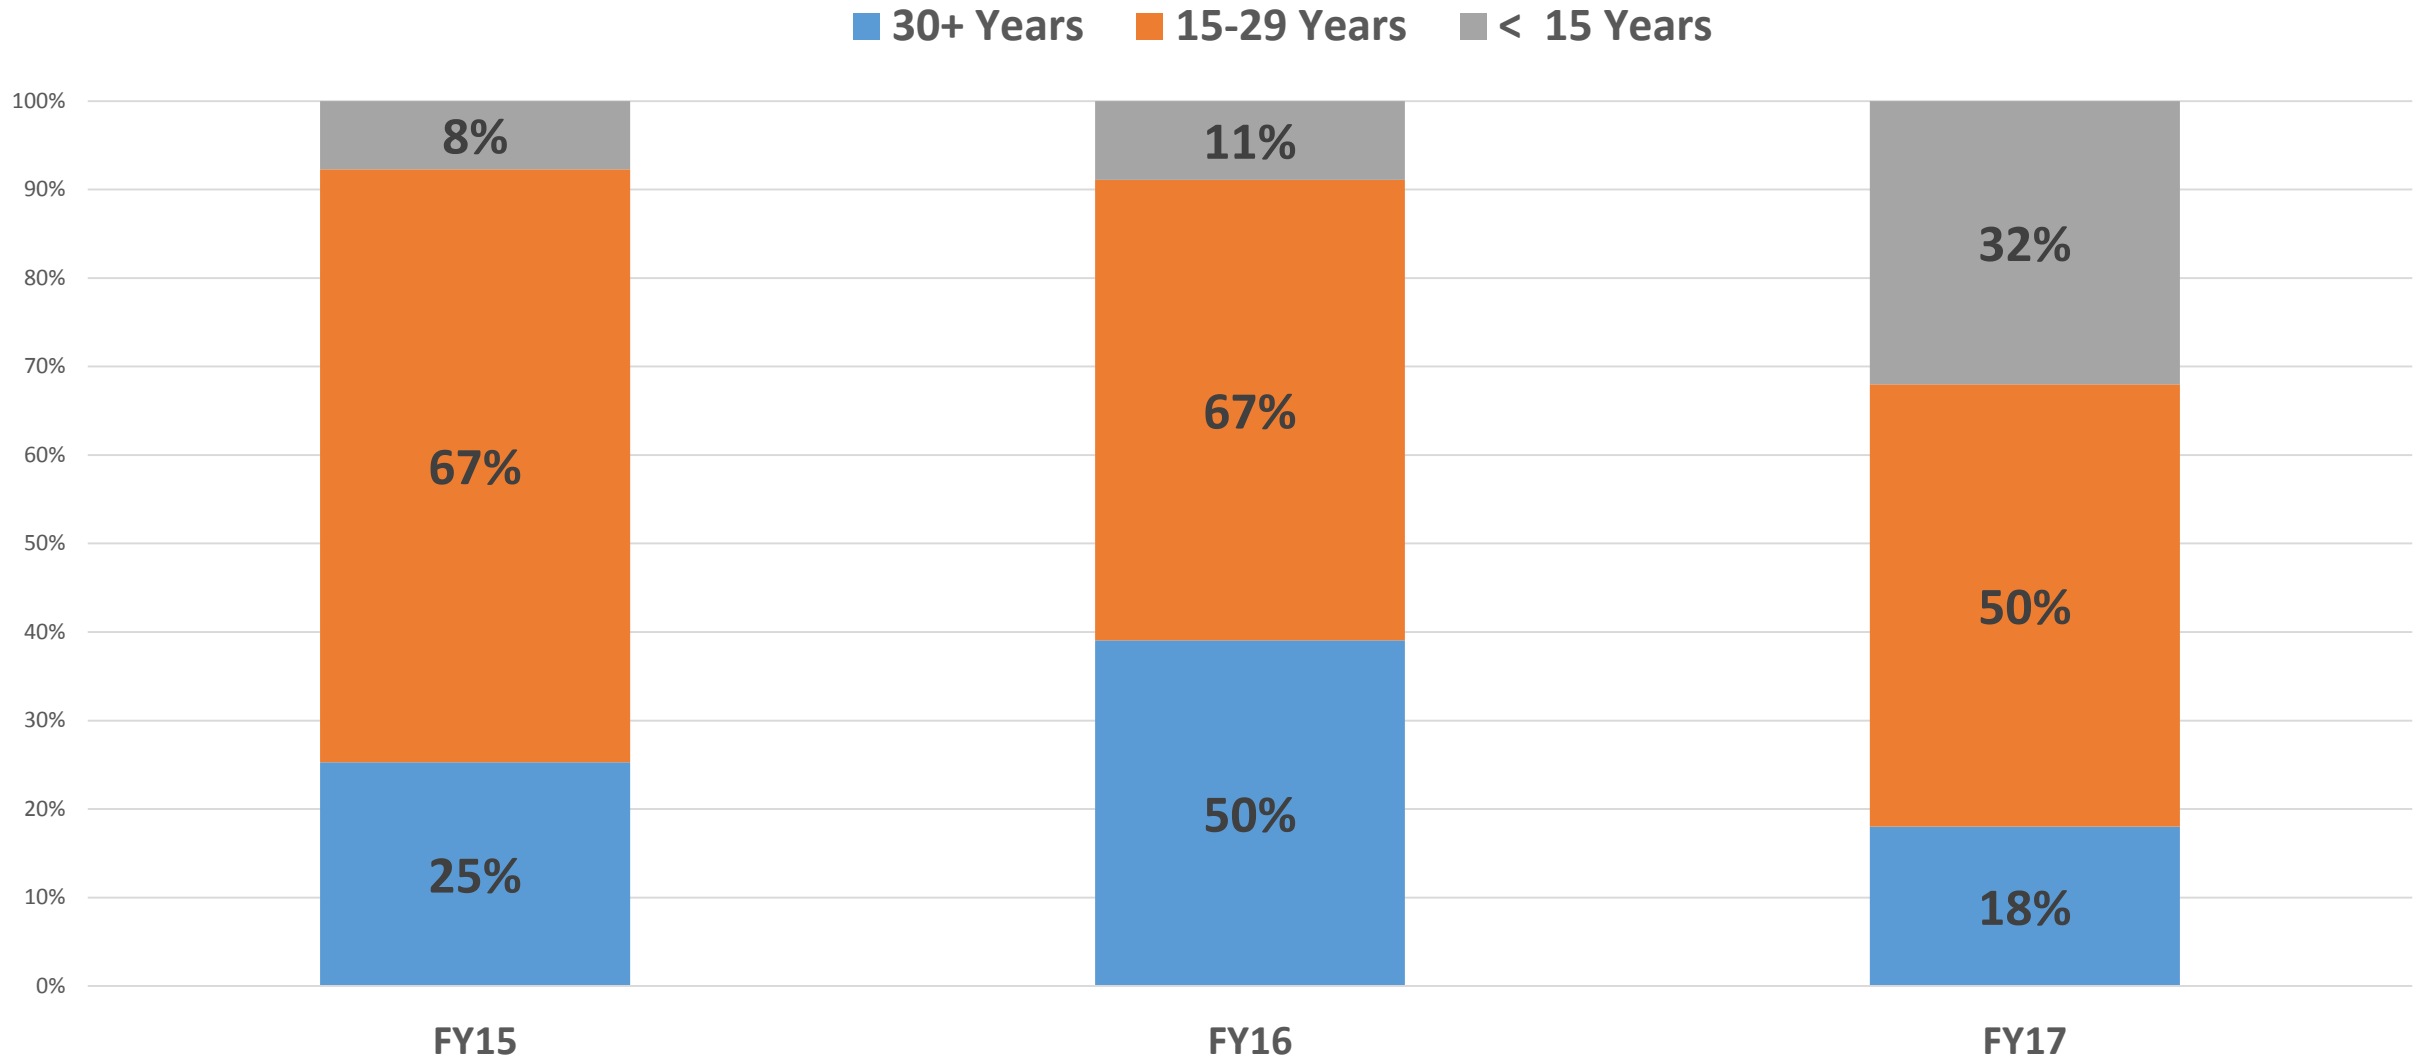

VMMC_CIRC FY17

VMMC_Circ Annual Trend FY15-FY17

VMMC Age Pivot Trends FY15 - FY17

In FY17, only half of men that were circumcised were in the target age group, 15-29 years

External Quality Assessment (EQA)

- Successfully completed the first ever VMMC EQA in the country in 2017.
- A total of 35 sites were assessed
 - 15 Public sector sites
 - 19 Private Sector sites
- 8 Different international EQA tools (A-H) were used to conduct the Quality Assessment
 - The 9th tool is not applicable to Namibia at this stage

Private Sector

96%	71%	85%	89%	100%	100%	90%	90%

score: >85% (Good); 70-85% (Fair); <70% (Poor)

Main Recommendations from the EQA

- Training of clinicians on:
 - Dorsal slit technique and
 - Emergency management
- Conduct CQI
- Space constraints management
- Reduce gaps in the use of
 - Aseptic techniques and
 - Waste management
- Reusable VMMC kits over Disposable kits

Challenges and Proposed Solutions

Challenge	Proposed Action	Activities
1. Low VMMC uptake	i. Innovative demand creation strategies	i. VMMC ambassador campaigns ii. Soccer based intervention <ul style="list-style-type: none">• Grassroots soccer• Namibian newspaper cup
2. VMMC techniques and insufficient MC Staff	i. Clinicians Training ii. Increase the number of VMMC providers to absorb demand	i. Dorsal slit technique trainings ii. Introduce non-surgical device as an alternative technique (Shang Ring) iii. Ongoing certification of clinicians

Thank you !

Voluntary Medical Male Circumcision
Get the smart cut. It's easy, safe and simple.
