Partner Performance HTS_TST, FY17

PEPFAR

Partner Performance HTS_POS, FY17

Key Success Factors For 1st 90

- Rapid expansion of high yield (e.g.in-patient PITC and index partner testing) and slowing-down those inefficient HIV testing modalities (e.g. community home-based testing)
- Implementation of campaigns that targeted under-served population groups living in high burden regions
 - Surge campaign (Q3, 7 regions)
 - Mobile men’s testing (Q4, Khomas)
- Emergency supply of RTKs to implementing partners
- Improved partner management
- National surveys (TB-DPS and NAMPHIA)
